

MODERNIZE YOUR AG RETAIL OPERATIONS WITH LEVRIDGE

THE POTENTIAL

Visibility and efficiency begins in the Levridge solution for ag retail. Never wonder if you have enough product purchased vs. what has been sold. Levridge allows you to keep an eye on your risk position, organize the chaos and provide vision into the journey of every seed planted.

- Proposals, orders, bookings & prepayments
- Application scheduling
- Quick & easy invoicing
- Real-time inventory
- Split payments

THE PROGRESS

With Levridge you and your growers can track and gain a clear picture of what's happening in the field. Information is all logged in one solution where it can be reconciled and reported.

- Scouting & application of crop protection products
- Planning & invoicing
- Seed & tech agreements
- Return of unused inventory
- Forward contracting
- Bin management

THE JOURNEY

Every inbound commodity is destined to go somewhere. Whether it's headed to a grain processor or a grain terminal, by outbound rail or outbound trucks, Levridge handles the intricacies of this process. Wherever it is and wherever it's going, all the vital roles in your organization have access to the entire journey.

- Sales contracts
- Tracking shipping against contract
- Shipment
- Advance payments
- Tracking freight costs

THE MEASUREMENT

As growers deliver crops to your locations, the importance of recording information and data reaches a new gear. The Levridge scale measures your harvest at industry-leading speed.

- Weigh and grade loads
- Integrated scale interface
- DPR/Risk management
- Grower commodity settlements
- Deferred payments

THE RETURN

Whether you're a co-op or private business, Levridge includes world-class financial functionality in the core solution. It's everything your CFO wants and more. Plus, if you're a co-op, no longer is it painful to track and integrate equity and patronage into your operations.

- P & L statements & balance sheets
- Payables & receivables
- Manufacturer rebate calculations & reconciliation
- Reporting
- Source and use of funds
- Stock allocations
- Patronage calculations

THE PREPARATION

In agriculture, you're always in a state of preparation for what's next. As you begin to plan with growers, your team can reference historical information stored in Levridge to assist in planning and providing recommendations.

- Seed and fertilizer contracted and recorded
- Procurement process
- Sales forecasting
- Purchase agreements
- Inventory staging
- Prepayments
